

## **JET and PACE Telematics Revolutionize the Fueling Experience - Innovative Partnership for a Digital Future**

**Karlsruhe/Hamburg 09.04.2024** – PACE Telematics, the leading provider of mobile payment solutions in the European petrol station market, is proud to announce a groundbreaking partnership with JET, Germany's most popular petrol station brand for 14 years. This cooperation marks a significant step in digitizing the refueling experience, setting new standards for convenience and efficiency.

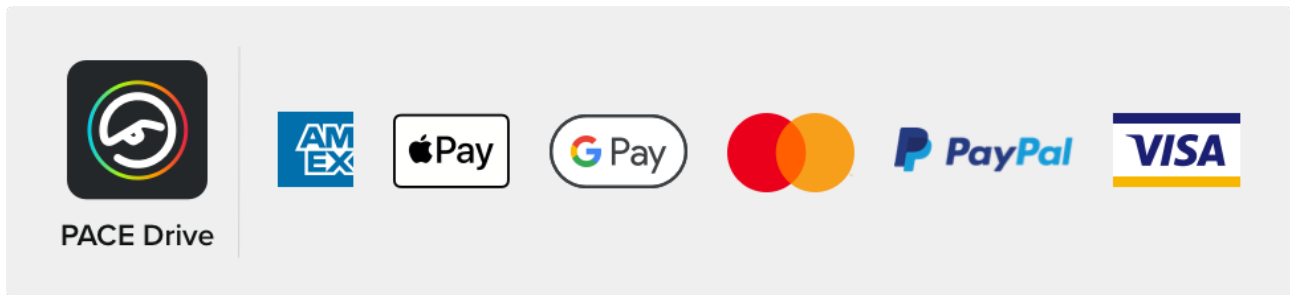

Starting immediately, JET will use PACE's Connected Fueling platform as its primary mobile payment solution across its entire network of over 680 stations in Germany. This allows JET customers to use the PACE Drive App, as well as digital payment methods, such as the DKV Mobility App and the Hoyer App at all JET stations. The integration of additional digital acceptance partners is already underway, further increasing flexibility and accessibility for users.

The in-app payment process is quick and easy:

1. Once users arrive at the desired fuel station, they select their preferred fuel pump.
2. They fill up as usual and authorize the transaction using their preferred payment method.
3. The journey continues. Receipts are archived in the app and sent via e-mail.

Thanks to a two-stage authorization process and data encryption, data security is guaranteed at all times.

The PACE Drive app is available free of charge from the Google Play Store and the Apple App Store and can be used on smartphones, smartwatches, as well as through Apple CarPlay and Android Auto directly in the car. It supports a variety of payment methods, including AMEX, Apple Pay, giroPay (only for Germany), Google Pay, Mastercard, PayPal and VISA. Users can enter their preferred payment method during registration and then use them directly in the app.

Philip Blatter, Managing Director and founder of PACE Telematics, is enthusiastic about the partnership: "The cooperation with JET is a milestone for PACE and underlines our leading role in the field of digital fueling in Europe. Together with JET, we want to make the fueling experience easier, faster and safer for millions of drivers."

By integrating mobile payment solutions, JET strengthens its focus on excellent customer service. For a brand with a particularly high customer volume per location, easy payment at the pump is an important addition for JET. Customers who value the convenience of mobile payment via app - such as motorcyclists who don't want to take their helmets off or parents with small children – now have an easily accessible alternative. Additionally, petrol station teams have more time to assist customers in the shop, bistro or those who prefer traditional payment. This ultimately helps busy people get back on the road quickly with JET.

"Our partnership with PACE Telematics is an important step in the digitalization of our services. At the same time, we are offering our customers a new, hassle-free fueling process at JET. For commercial customers who already use digital services, such as the DKV or Hoyer app, the connection to PACE will make JET even more attractive for a quick, uncomplicated refueling stop", says Oliver Reichert, Manager Retail JET Tankstellen Deutschland GmbH.

### **About PACE Telematics & Connected Fueling**

The open Connected Fueling platform, operated by PACE Telematics (Karlsruhe, Germany), enables seamless mobile payment directly at the fuel pump through a uniform, cost-saving integration of all partners with the Connected Fueling cloud system. The independent platform is open to all petroleum companies, service station operators, fuel card issuers and POS system providers. Additionally, the platform offers automobile manufacturers and app developers flexible interfaces and easily integrable Software Development Kits (SDKs) to incorporate the mobile payment functionality into their systems. For more information, please visit [www.connectedfueling.com](http://www.connectedfueling.com).

### **About JET**

JET Tankstellen Deutschland GmbH operates a network of over 680 JET stations and over 280 car washes nationwide. Since 1970, JET has stood for brand quality at fair prices. JET is passionate about meeting the needs of mobile people – reliably and straightforwardly. Whether in the store, at the car wash, or at the pump: JET makes it easy for customers to make decisions and ensures fast processing. It's no wonder that consumers have chosen JET as Germany's most popular petrol station brand for the 14th consecutive year (Source: [www.yougov.de](http://www.yougov.de)). JET is also a repeat winner of the German Fairness Award in the "Petrol Station Shops" category (source: [www.disq.de](http://www.disq.de)).
